(\*)

- The alarm user is THE PERSON who is the owner or person in charge of the premises where an alarm device is maintained. Commencing January 1, 1991, after the police department has recorded three (3) separate false alarms from an alarm user within a calendar year, the police department will notify the alarm user in writing of such facts, including the dates and times of each alleged false alarm. For the fourth false alarm within a calendar year, the alarm user shall be accessed a \$25 fine, and a \$50 fine shall be accessed for each subsequent alarm within said calendar year.
- All alarm users must notify the police department in advance of any testing of equipment. Failure to notify the police department in advance of testing shall constitute a false alarm, and subject the alarm user to a fine.
- It shall be the responsibility of the alarm user to register any change in alarm system information including a change of the alarm user with the police department. Alarm systems must be registered with the police department within thirty (30) days of installation. **Failure to register an alarm can subject an alarm user to a \$300 fine.**
- All alarm systems which use an audible bell, horn or siren must be equipped with an automatic shut-off device which will silence the device within 25 minutes. Failure to have an audible alarm equipped with this automatic shut-off can subject the alarm user to a fine.
- Every alarm user shall submit the name of at least one other person authorized to respond to an emergency signal transmitted by an alarm and who can open or provide access to the premises. The police department will normally contact the alarm company first if there is a question about the alarm's status or if access is needed to the premises.
