

February 24, 2011

The Dennis TRIAD along with the Friends of Dennis Senior Citizens Inc. are working with the Dennis Police and Fire Departments to raise awareness of residents concerning the "Lock Box" program.

The lock box holds a key to the resident's front entrance and would only be used by emergency personnel for medical, fire or police emergencies, when the resident is unable to give access to the home.

The lock box avoids delay of needed emergency services and the cost of a broken door or window if emergency personnel must force their way into the home to render assistance.

The lock box costs \$45 and will be installed by trained volunteers from the Dennis Police Department's Volunteers in Police Service (VIPS) program.

For more information on this program please call 774-352-1570 and leave a message. Some one will get back to you.
